TrueSafe®
Push Button Style Safety IV Catheter

MEDSOURCE

Triple Facet, Back Cut, Beveled Needle
Provides ease of insertion with increased patient comfort at insertion site

Push-Off Tab
Assists with one-handed catheter advancement

Push Button Style Needle Retraction Safety Mechanism
Retracts needle fully and safely into catheter body

Encapsulating Needle Shield
Encases the needle as catheter is advanced, promoting needlestick safety and reducing exposure to bloodborne pathogens

Gently Tapered Catheter Tip
Provides smooth transition from needle to catheter during insertion

Ridged Catheter Hub
Offers superior grip and stability during connection of IV Administration Sets

Contoured Catheter Body
Ergonomically designed for one-handed technique

Flashback Chamber
Allows for clear visual confirmation of successful venipuncture

Audible Click Lock Safety Mechanism
Audible confirmation ensures the needle is safely encapsulated in the catheter body

RapidFlash® Notched Needle
(Featured in sizes 20G - 24G) Allows for quick, clear visual confirmation of successful venipuncture

PTFE Catheter Material
High tensile strength catheter material
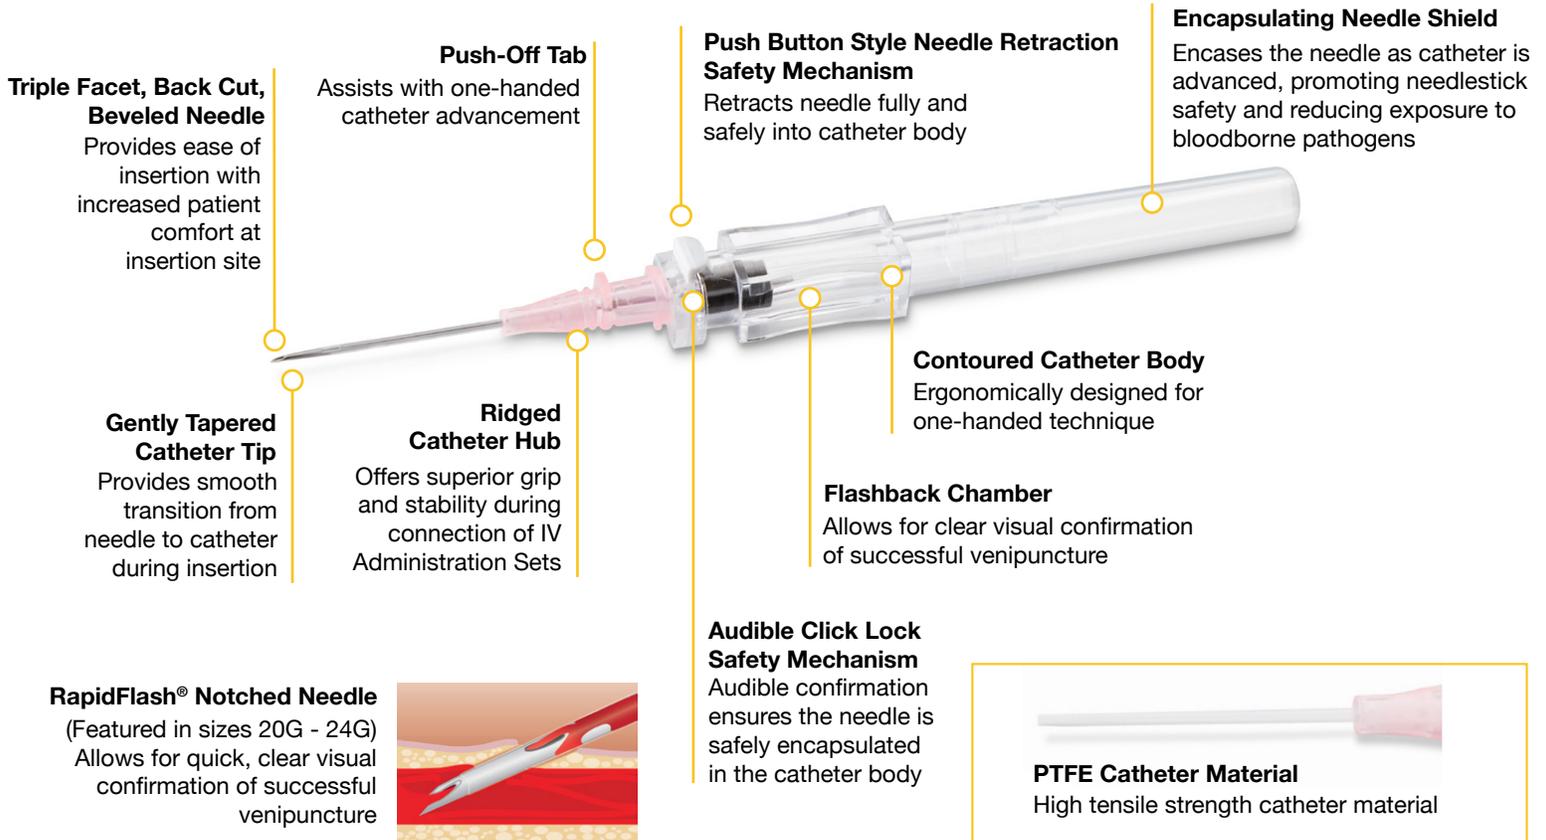

PUSH
BUTTON

SPECIFICATIONS

- PTFE catheter material
- Push button style needle retraction
- Notched needle (sizes 20g - 24g)
- Ground stainless-steel needle

- Straight hub
- Disposable
- Not made with natural rubber latex
- Not made with DEHP

- Non-pyrogenic
- ISO compliant color coding
- Needlestick Safety and Prevention Act (NSPA) of 2000 compliant
- Radiopaque
